

Supernova with a donation of €100,000 to help those affected by the floods

The Supernova Group expresses its deepest sympathy to all of you who found yourself in a difficult situation last weekend due to the devastating floods. Slovenia and its inhabitants are facing a test where solidarity is needed, which has already been proven many times. At the same time Supernova expresses big thanks to the outstanding firefighters, soldiers, civil defense representatives and many volunteers for their immediate selfless help.

To mitigate the consequences of the devastating floods, the Supernova group immediately responded with a donation of 100,000 euros to the Slovenian Red Cross. The contribution will enable immediate and urgent assistance to the affected households, so that they can more easily repair the damage and get their homes in order as quickly as possible.

About Supernova Group:

The Supernova Group is an international company based in Graz, focused on the development and management of commercial real estate in Austria, Croatia and Slovenia. In addition to the aforementioned key markets, the Supernova Group is also active in Germany, Slovakia and Romania. The group's current portfolio comprises over 110 properties (and seven undeveloped sites) and has a gross asset value of over EUR 2,2 billion.

They entered the Slovenian market in 2002 with the development of two do-it-yourself stores and two shopping centers in Ljubljana and Koper. In 2008, a significant part of the Slovenian portfolio was sold to Pramerica and the Supernova Ljubljana Rudnik shopping center was opened.

In 2019, the Supernova Group achieved the leading retail position on the Slovenian market in terms of the number of shopping centers and the total leased area. Initially, the Supernova group took over ten commercial buildings from Mercator's portfolio (Ljubljana Šiška, Kranj Primskovo, Kranj Savski otok, Ajdovščina, Celje, Jesenice, Koper, Slovenj Gradec, Novo mesto, Postojna). In the same year, Supernova continued its successful expansion by acquiring 11 shopping centers from Centrice Real Estate GmbH of the American Lone Star Fund.

In recent months, the Supernova Group has worked hard to increase the quality of services, the offer and the entire infrastructure of the acquired centers. They also invested in marketing activities and united all their centers under the same visual identity – the Supernova brand. The process of renaming the Mercator and Qlandia centers to Supernova centers has been completed.

So far, Supernova has invested more than 500 million euros in its 24 operational projects, which employ over 10,000 people, through investment and development activities in Slovenia.

With intelligent development and strategic acquisitions, the Supernova Group plans the further growth of the group while respecting a conservative financing structure, while at the same time investing in growing markets such as real estate and renewable energy sources.
